

## Required Clearance Information for Prospective Adoptive Parents

**ADOPTIVE FAMILY:** The agency that completed your home study will need to provide *A Guardian Angel Adoptions, LLC* with this form as well as copies of the following clearances with the dates clearly defined. Providing us with this form and copies of the required clearances will help us ensure that your home study meets your state requirements for the various clearances and will help us process your ICPC packet more effectively. Please note Utah requires that your state clearances, as well as your sex offender and abuse clearances be less than one year old. If any are older than one year old, you will need to provide new clearances to *A Guardian Angel Adoptions, LLC* prior to your home study being approved. *A Guardian Angel Adoptions, LLC* is unable to process your home study without a complete and signed copy of this form.

**NOTE FOR STAFF COMPLETING FORM:** If the state where the prospective adoptive father or prospective adoptive mother does not require a specific clearance, please state “not required” to avoid confusion with not available. Please make sure the Home Study you are sending includes your name and credentials, the date the home study was approved, your agency’s name, address, phone & fax.

Please fill out this clearance form entirely, including the family’s name & address. If you are a UT social worker completing a home study for a UT family, please make sure background checks are run through the Office of Licensing. The forms and instructions are available on our website. We cannot accept background checks not submitted to and approved by Utah Office of Licensing.
